

## New Network Switches for myMix

### POWER 12N and POWER 25

Power12N and POWER25 are pre-configured Netgear Fat Ethernet switches that allows to:

- power up to 12 (POWER12) / 25 (POWER25) myMix units with POE
- connect additional 12 / 23 myMix devices such as IEX16L and myMixCONTROL
- Provides 4 GB uplink ports to link other myMix switches for expanded networks

**A great value at (MSRP):**

**POWER12N \$ 690.00**

**POWER25 \$ 1,190.00**

### MULTI 8

The preconfigured Netgear GS108-T is a 8-port managed Gigabit switch that solves a lot of connectivity issues and network expansion for myMix by simply plug-and-play.

- connect any myMix, IEX16, myMix CONTROL interface, or GB-uplink port from another myMix switch.
- Ideal switch for the FOH position

**A must have at \$198 (MSRP)**
